MESSAGE FROM THE CONFERENCE CHAIR

On behalf of the Canadian Association of Neonatal Nurses 2018 National Conference Committee and the Board of Directors, I would like to extend a very warm welcome to all of you.

We are very excited to bring you an engaging and relevant program inspired by our theme “Neonatal Care: It Takes a Village”. The next 2½ days will feature an impressive line-up of general session speakers as well as concurrent sessions and poster presentations. Together we will learn from the research and explore innovative ideas and discuss emerging topics and trends that are forging the way to improved neonatal nursing care.

The conference also offers excellent networking opportunities and social events beginning with a welcome reception on Friday evening in the exhibit hall, where you will enjoy a little mixing and mingling and have the opportunity to network with colleagues from across the country. On Saturday evening we invite you to kick back and relax as you join us for dinner and an evening of fun and dancing – the evening will begin with our CANN Marketplace and you will have the chance to win a few prizes.

Once again this year we are very fortunate to have many exhibitors and partners supporting the conference and our Association and we would like to acknowledge them for their very generous support. Please take the time to visit the exhibit hall to view and learn about the newest developments and advancements in equipment, products and services for neonatal care.

In closing, we would like to thank you for making the decision to participate in the CANN 2018 National Conference. We hope you return home with a renewed passion and a sense of belonging to our vibrant and caring Village. While this conference is hosted by CANN, we want to recognize that to raise a NICU graduate it takes a team... the “village”... it is all of us working together with neonates, and with their families. We would also like to welcome and recognize those who are joining us from different disciplines. CANN is proud to help facilitate all members of the team in coming together to work and to share knowledge, and to help improve the overall outcome for our patients and families. Together we can make a difference every day.

I look forward to meeting many of you over the course of the next few days – enjoy the conference!

Charlie Louie, BAR, BSc, BN, MCS
CANN 2018 National Conference Chair
Director, Canadian Association of Neonatal Nurses
CONFERENCE PLANNING COMMITTEE

CHAIR
Charlie Louie, BAR, BSc, BN, MCS
Registered Nurse
BC Women’s Hospital + Health Centre
Vancouver, BC

COMMITTEE MEMBERS

Tamara Dickin, RN, CNE
Clinical Nurse Educator
Regina General Hospital
Regina, SK

Danica Hamilton, RN, MN, PNC(C), CNCCP(C)
Senior Practice Leader, Neonatal Program
BC Women’s Hospital + Health Centre
Vancouver, BC

Anna Kneblewski, RN, BN, MN
Clinical Nurse Educator
South Health Campus,
Alberta Health Services
Calgary, AB

Karen Lasby, RN, MN
Assistant Head Nurse/ Clinical Nurse Specialist
Postpartum Community Services,
Alberta Health Services
Calgary, AB

Mary Scales, RN, BScN
Clinical Nurse Educator
Stollery Children’s Hospital
Edmonton, AB

Jennifer Taylor, BSN, RN, CNE
Clinical Nurse Educator
Foothills Medical Centre
Calgary, AB

BADGES
Please ensure you wear your name badge throughout the conference – required for entrance into all conference sessions, exhibit hall, meal functions and social activities.

CERTIFICATE OF ATTENDANCE
A certificate of attendance may be requested upon submission of the online conference evaluation form.

CONFERENCE EVALUATION
Your feedback is an integral part of the planning process for future conferences. An online general conference evaluation will be sent to you by email following the conference.

DIETARY REQUIREMENTS
If you indicated special dietary requirements, these have been communicated to The Westin Calgary. Simply identify yourself and your dietary requirement(s) to the service staff at each meal function.

DISCLAIMER
The speakers, topics and times as shown in this guide are correct at the time of printing. In the event of unforeseen circumstances, the organizers reserve the right to cancel or alter the program or substitute speakers as required.

INTERNET ACCESS
The Conference Planning Committee is pleased to offer complimentary wireless internet access throughout the meeting space – Username: CANN; Password: 2018.

LIABILITY AND SECURITY
The CANN 2018 Conference does not include provisions for the insurance of participants against personal injuries, sickness, theft or property damage. Participants and accompanying persons are advised to arrange for the insurance they consider necessary. The Conference Planning Committee assumes no responsibility for loss, theft, injury or damage to persons or belongings.

No city is exempt from crime. Please take precautions to ensure your safety by removing your name badge when outside of conference events, storing valuables in safety deposit boxes at your hotel, using all locking devices on your hotel room door, checking the location of fire exits, and checking with hotel staff before venturing into unknown areas of the city.

PHOTOS
Committee members will be taking photos throughout the conference, which may be posted on the conference website. Please let us know if you do not want your photo to be included.

The Canadian Association of Neonatal Nurses extends special thanks to all committee members, session chairs and volunteers for their support of the conference.

The Canadian Association of Neonatal Nurses extends special thanks to all committee members, session chairs and volunteers for their support of the conference.

NEONATAL CARE: It Takes A Village

REGISTRATION AND INFORMATION DESK
A Registration and Information Desk will be set up in the Ballroom Foyer as follows:

Friday, April 20  13:00 – 18:30
Saturday, April 21  07:00 – 17:30
Sunday, April 22   07:15 – 16:30

To contact the Registration and Information Desk by phone, call the hotel operator and ask to be connected to the CANN 2018 Conference Registration Desk.

To reach the CANN 2018 Conference Secretariat c/o the Canadian Association of Neonatal Nurses outside of the registration hours, please email info@neonatalcann.ca or call 613-721-7061 (in Ottawa, ON) – on-site call or text: 613-222-0754.

THE WESTIN CALGARY
All CANN 2018 National Conference sessions and events will be held at The Westin Calgary.
CANN 2018 National Conference

SOCIAL PROGRAM

FRIDAY, APRIL 20  17:30 – 19:00  BELAIRE/BRITANNIA BALLROOM

Welcome Reception and Exhibits
The Canadian Association of Neonatal Nurses (CANN) welcomes neonatal nurses to Calgary! Come mix and mingle with your colleagues while enjoying some wine and light snacks, and the sound of Jarred Nicklen on the piano.

The reception will be held in the exhibit hall where our industry partners will be featuring and displaying the latest products and services in neonatal nursing.

RECOMMENDED ATTIRE: BUSINESS CASUAL
SPONSORED BY: GETINGE

SATURDAY, APRIL 21  06:45 – 07:30

5K Run, Walk, Crawl
In the spirit of wellness – and early morning energizer. Join us for a complimentary fun run. All levels are welcome. Meet in the lobby of The Westin Calgary at 06:45.

SATURDAY, APRIL 21  18:00 – 22:00  MAYFAIR BALLROOM

It Takes a Village Reception, Dinner and Dance
Come enjoy dinner, entertainment and a night of fun. Following dinner, get ready to dance the night away with Calgary’s own group of docs and friends - the band “No Refund!”. Of course, there will also be plenty of contests and prizes!

The night will begin at 17:30 with a little shopping and mingling at our “CANN Marketplace”. We have invited local vendors to join us.

RECOMMENDED ATTIRE: CASUAL (RED OPTIONAL)

Neonatal Care: It Takes A Village | www.neonatalcann.ca
GENERAL SESSIONS
All General Sessions will be held in the Mayfair Ballroom.

FRIDAY, APRIL 20
15:15 – 16:15
Creating a Global Village through Social Media

Michael Narvey, MD, FRCPC, FAAP
Section Head, Neonatology; Medical Director of the Child Health Transport Team; Health Sciences Centre, Winnipeg, Manitoba

SESSION OBJECTIVES:
1. Describe what motivates people to embrace social media for medicine.
2. Demonstrate how this tool can create a fertile ground for real change.
3. Discuss the far-reaching impacts that can stem from involvement in social media.
4. Address the pitfalls of dwelling in the world of social media.
5. Discuss where neonatal care is headed.

Tell us what you love most about neonatal nursing.

Visit the Conference Registration and Information Desk to post your message on the Village board. You will find cards provided with your registration material.
GENERAL SESSIONS
All General Sessions will be held in the Mayfair Ballroom.

FRIDAY, APRIL 20
16:15 – 17:30
Family Integrated Care (FiCare) Panel

MODERATOR: Jennifer Taylor, BSN, RN, CNE
Clinical Nurse Educator, Neonatal Intensive Care Unit,
Foothills Medical Centre, Calgary, Alberta

Fabiana Bacchini, Parent
FiCare Ambassador and NICU Parent Advisor,
Mount Sinai Hospital, Toronto, Ontario

Karen Benzies, BScN, MN, PhD, RN
Professor, Associate Dean (Research), Faculty of Nursing; Adjunct Research
Professor, Department of Pediatrics, Cumming School of Medicine; Adjunct
Professor, Community Health Sciences, Cumming School of Medicine;
University of Calgary, Calgary, Alberta

Adeline Riehl, RN, BN
Manager, NICU and NICU Transport, Royal University Hospital,
Saskatoon Health Region, Saskatoon, Saskatchewan

SESSION OBJECTIVES:
1. Provide a brief overview of the principles of FiCare and modifications to
   the model made for Level 2 sites.
2. Provide a parent’s perspective on the NICU journey and the impact of
   FiCare on their experience.
3. Share the experience of working with the NICU team as a veteran parent.
4. Share the journey with FiCare at Royal University Hospital in Saskatoon.

SATURDAY, APRIL 21
08:15 – 09:15
Neuroprotective Care for Nurses at the Bedside

Kara Ann Waitzman, OTR/L, CNT, NTMTC
Neonatal Occupational Therapist
President, Creative Therapy Consultants
Founder, Neonatal Touch & Massage Certification
Co-Owner, Infant-Driven Feeding, LLC
Tipp City, Ohio

SESSION OBJECTIVES:
1. Name 7 neuroprotective core measures of family-centered developmental
   care.
2. Discuss adaptations in care the bedside RN can make to ensure optimal
   neuroprotection for the high-risk infant in the NICU.

09:15 – 10:15
Impact of Neonatal Neuro-Critical Care Programs

Khorshid Mohammad, MD, MSc, CABP
Neonatologist; NICU Lead, Neo-Critical Care Program;
Alberta Children’s Hospital/Research Institute
Clinical Assistant Professor of Pediatrics, University of Calgary
Calgary, Alberta

SESSION OBJECTIVES:
1. Understand the impact of the neonatal neuro-critical care program on
   term and preterm survival.
2. Understand the impact of the neonatal neuro-critical care program on
   term and preterm brain injury.
3. Understand the impact of the outreach neuroprotection educational
   program on neonatal brain injury.
GENERAL SESSIONS
All General Sessions will be held in the Mayfair Ballroom.

SATURDAY, APRIL 21

10:45 – 11:45
Hope’s Home: A Journey of Hope… Community Care for Children with Complex Medical Needs

Jacqueline Tisher, RN
Founder and Chief Executive Officer, Hope’s Home Inc., Regina, Saskatchewan

Nicole Cook, LPN
Chief Operating Officer, Hope’s Home Inc., Regina, Saskatchewan

SESSION OBJECTIVES:
1. Provide introduction to children and infants with complex medical needs.
2. Gain understanding of the impact on families and caregivers of children with complex medical needs.
3. Discover Hope’s Home programs and services.

13:00 – 14:00
FUN-damentals of Feeding in the NICU

Lynn S. Wolf, MOT, OTR, IBCLC
Supervisor, Infant Therapy Team, Seattle Children’s Hospital, Seattle, Washington

SESSION OBJECTIVES:
1. Understand the importance of having a clear plan for progression to oral feeding for babies in the NICU.
2. Describe the role of breathing in infant feeding.
3. Know at least 3 techniques or strategies to improve oral feeding outcomes in the NICU.

14:00 – 15:00
Empowering NICU Nurses: Making a Difference in Breastfeeding Outcomes of NICU Babies

Kim Carmignani, MSN, RNC-NIC, CPN, CLC
Clinical Director, Pediatric Subspecialty Clinics Northwestern Medicine, Central DuPage Hospital/Delnor Hospital
In partnership with Ann and Robert H. Lurie Children’s Hospital Chicago, Illinois

SESSION OBJECTIVES:
1. Identify ways to increase breastfeeding rates in the NICU.
2. Define what is an exclusive human milk diet.
3. Identify the benefits of an exclusive human milk diet.

SPEAKER SPONSORED BY:

THE POWER OF
The Human Touch
Only Prolacta Bioscience can provide the kind of nutrition that is exclusively human.

To provide your preterm patient with a 100% human milk-based diet, call 1-888-PROLACT (1-888-776-8422) or www.prolacta.com
GENERAL SESSIONS
All General Sessions will be held in the Mayfair Ballroom.

SUNDAY, APRIL 22

07:30 – 08:15
Physiologic-based Management of PPHN

SYMPOSIUM SPONSORED BY: Mallinckrodt Pharmaceuticals

Yasser El-Sayed, MD, PhD
Assistant Professor of Pediatric and Child Health; Staff Neonatologist; St. Boniface Hospital, Winnipeg, Manitoba

Deb Fraser, MN, RNC-NIC
Associate Professor; NP Program Director; Faculty of Health Disciplines, Athabasca University, Winnipeg, Manitoba

SESSION OBJECTIVES:
1. Describe the physiology of hypoxemia
2. Outline the pathophysiology of pulmonary hypertension.
3. Discuss a physiologic-based approach to the management of select cases of pulmonary hypertension.

08:30 – 09:30
Respiratory Stabilization at Birth and Current Research

Georg M. Schmölzer, MD, PhD
Neonatologist, Northern Alberta Neonatal Program, Alberta Health Services
Professor of Neonatal Resuscitation, University of Alberta
Director, Centre for the Studies of Asphyxia and Resuscitation (CSAR)
Edmonton, Alberta

SESSION OBJECTIVES:
1. Understand fetal to neonatal transition.
2. Apply these changes to daily newborn care.
3. Understand emerging technologies and treatment options.

09:30 – 10:30
Moral Distress within the NICU

Kimberley Stever, MA
Clinical Ethicist, Alberta Health Services Clinical Ethics Service, Alberta Children’s Hospital, Calgary, Alberta

SESSION OBJECTIVES:
1. Identify the difference between moral distress and moral uncertainty.
2. Become familiar with moral distress mitigation techniques.
3. Identify when to partner with clinical ethics services as a resource for dealing with moral distress in the NICU.

11:15 – 12:15
Indigenous Inclusion in the Canadian Health Care Experience

Chelsea Crowshoe
Senior Advisor, Indigenous Cultural Competency Education, Indigenous Health Program, Alberta Health Services, Calgary, Alberta

SESSION OBJECTIVES:
1. Obtain an understanding of Indigenous health experiences historically to present.
2. Acquire a better understanding of worldview differences and the relationship to healthcare.

12:45 – 13:30
Social Media in Professional Practice

Jennifer Katsuno, B.A. (Hons), J.D.
CNPS Legal Advisor, Canadian Nurses Protective Society (CNPS), Ottawa, Ontario

SESSION OBJECTIVES:
1. Obtain an introduction to CNPS as an organization.
2. Understand some of the considerations nurses should keep in mind when being active on social media, including privacy/confidentiality and boundaries issues.
3. Understand how these considerations may come into play through relevant case studies.
SUNDAY, APRIL 22

15:15 – 16:30
Put on Your OWN O2 Mask FIRST before Assisting Others: N.U.R.S.E.ing the Village Nurse

Maureen Shogan, MN, RNC
Professional Nursing Consultant and Educator, Spokane, Washington

SESSION OBJECTIVES:
1. Discuss 5 simple, rejuvenating pearls for N.U.R.S.E.ing the nurse within the nurse.
2. Describe 5 immediate creative responses that enhance hardiness and energy during “draining” work situations.
3. Discuss ways to integrate modified “kitchen parties” at work.

15:45 – 16:30
Sweet and Sour: Hypoglycemia in the Newborn
Michael Narvey, MD, FRCP, FAAP

15:45 – 16:30
Whose Milk Is It Anyways? The Emergence of Unpasteurized Human Donor Milk in the NICU
Megan Bolton, RN, MScN, IBCLC, Danica Hamilton, RN, MN, PNC(C), CNCCP(C)

15:45 – 16:30
Guidelines for the Institutional Implementation of Developmental Neuro-Protective Care in the NICU
Isabelle Milette, NNP, Marie-Josée Martel, PhD, Margarida Ribeiro da Silva, NNP, Mary Coughlin, NNP

16:35 – 17:15
The Art & Science of Neonatal Touch & Massage
Kara Ann Waitzman, OTR/L, CNT, NTMTC

16:35 – 16:55
Crying Over Spilt Milk: Examining the Lactation Discourse in the Neonatal Intensive Care Unit
Allison Marchuk, RN, MN

16:35 – 16:55
Perceptions of Barriers to Parental Presence in Tertiary Level NICU
Marsha Campbell-Yeo, PhD, NNP-BC, RN, Joelle Monaghan, RN, MN, Tim Disher, RN, PhD(c)

16:55 – 17:15
Evaluation of Mobile Applications for Parents of Infants in the Neonatal Intensive Care Unit (NICU)
Brianna Richardson, BScN, RN, PhD in Nursing Trainee, Justine Dol, MSc, PhD in Health Trainee, Kallen Rutledge, MUS, Joelle Monaghan, BScN, MScN, RN, Adele Orovec, Katie Howie, BScN, RN, Talia Boates, BScN, RN, Mike Smit, PhD, Marsha Campbell-Yeo, PhD, RN, NNP

16:55 – 17:15
Parents’ Learning Needs and Preferences in Optimal Ways to Receive Information in the NICU
Joelle Monaghan, RN, MN, Justine Dol, MSc, PhD(c), Marsha Campbell-Yeo, PhD, NNP-BC, RN, Adele Orovec

The Giraffe platform you trust, built on neurodevelopmental care, revolutionized and modernized for newborns, parents and caregivers. One bed. One baby.
Come see the Giraffe Carestation at Getinge booths 13 and 16.
**CONCURRENT SESSIONS**

**SUNDAY, APRIL 22, 2018**

**13:30 – 14:15**
**ROOM:** Bow Valley

*Weed to Know about Cannabis in Pregnancy and Neonatal Effects*
*Maureen Shogan, MN, RNC*

**13:30 – 14:15**
**ROOM:** Nakiska

*Implementation of a Critical Incidence Stress Management Program*
*Renee Kampman, RN, BN, Emma Folz, RN, BScN, MA*

**13:30 – 14:15**
**ROOM:** Eau Claire

*Integrating Virtual Simulation into Neonatal Nursing Education*
*Carly Eliades, MN, RN, Treena Cardiff, MSN, RN*

**14:20 – 15:00**
**ROOM:** Bow Valley

*Why Are We Still Hurting Babies? A Practice Update Regarding Procedural Pain in Neonates*

CANN 2018 National Conference
Calgary, Alberta • April 20 – 22, 2018

SPEAKER BIOGRAPHIES –
GENERAL SESSIONS, SYMPOSIUM, CLOSING SESSION

Fabiana Bacchini, Parent
Fabiana Bacchini’s life was forever changed when her second child was born at just 26 weeks gestational. Being part of the Family Integrated Care program led her to the extensive volunteering in the NICU at Mount Sinai Hospital. She is a parent advisor, an ambassador of Family Integrated Care and has presented nationally and internationally. She is also on the board of directors at the Canadian Premature Babies Foundation and the co-founder of HandfullHearts, a not-for-profit organization. She is a journalist and the published author of From Surviving to Thriving, A Mother’s Journey Through Infertility, Loss and Miracles.

Karen Benzies, BScN, MN, PhD, RN
Dr. Karen Benzies is a professor and associate dean (research) with the Faculty of Nursing at the University of Calgary and she holds adjunct appointments with the Departments of Paediatrics and Community Health Sciences, Cumming School of Medicine, University of Calgary. She received a PhD from the University of Alberta and completed post-doctoral fellowships at Stockholm University and the University of Ottawa. She leads a program of research in early life environment and child development. Dr. Benzies has published over 80 articles in peer-reviewed journals, 40 technical reports, and 3 book chapters. She has given more than 100 media interviews and over 200 presentations to community groups, professional organizations, and at conferences. In addition to awards for her research and teaching, in 2016, Dr. Benzies received the Canadian Association of Perinatal and Women’s Health Nurses’ Excellence in Leadership Award. Her greatest honour was the Westbury Legacy Award from the Alberta Centre for Child, Family and Community Research to recognize her mentorship of graduate students and community partners working in child, family and community research. Dr. Benzies’ most satisfying accomplishments come from creating linkages among researchers, clinicians, and policy makers to improve the health and well-being of young children and their families.

Kim Carmignani, MSN, RNC-NIC, CPN, CLC
Kim Carmignani has been a clinician for over 31 years in maternal child care with most of her focus on neonatal infant intensive care. She has worked as a staff RN, case manager, NICU clinical educator, and clinical director of a 30-bed Level III NICU and lactation department. Kim is currently the clinical director of the pediatric subspecialty clinics for Northwestern Medicine western region in Chicago.

Nicole Cook, LPN
Nicole Cook grew up in Prince Albert in an environment with many hardships. Her family had very little money and she and her siblings would often be left to their own devices for survival. Despite the challenges she endured, Nicole was the first in her family to graduate from high school. She went on to study nursing. Shortly after her graduation from the nursing program she welcomed her first child into the world, who was born with complex medical needs. Her struggle to find the necessary support and care for her son led her to Jacqueline Fisher, who shared her determination to make the world a better place, and the modest daycare that would become Hope’s Home. Today, Nicole is the chief operating officer of Hope’s Home, a medical daycare that provides services for children with complex medical needs including early learning programs, daycare, respite and supportive living homes. Starting as an LPN within the organization, she continued to take on various leadership roles and core responsibilities, eventually finding her niche as a passionate leader alongside the CEO. Nicole has incredible vision and a knack for turning innovative ideas into reality, which secured her an integral role in growing Hope’s Home from a small organization to the provincial corporation it has become. She oversees and improves all the functional aspects of the organization from finances and human resources to the day-to-day operations of nursing and early childhood education. Although she hasn’t had professional training in every one of these aspects, she makes it her personal mission to research...
and learn every area of the company to provide the best guidance possible to her employees and ensure Saskatchewan families are getting all the support they need from Hope’s Home. Nicole was a graduate of Saskatchewan Institute of Health Leaders in 2011 and a proud recipient of the CBC Future 40 Under 40 Award for Saskatchewan in 2016.

Chelsea Crowshoe
Chelsea Crowshoe is a proud member of Piikani First Nation of the Blackfoot Confederacy located in Southern Alberta. Her professional career path led her to a focus on Indigenous health. She has worked with several organizations including First Nation Inuit Health Branch, Treaty 7 Tribal Council, First Nation communities, and currently Alberta Health Services (AHS). Chelsea has filled several roles within AHS including operational manager for the Elbow River Healing Lodge, a primary health care facility centred on the urban Indigenous population located in Calgary, and manager for the Aboriginal Health Program for the former Calgary Health Region. Currently her role as senior advisor with AHS concentrates on building cultural competency for employees of AHS focusing on Indigenous health. Her role aims to increase awareness, education and cultural competency among health professionals and increase positive health experiences and outcomes for Indigenous patients and families.

Yasser Elsayed, MD, PhD
Dr. Yasser El-Sayed is the director of the hemodynamics and targeted neonatal echocardiography program at Health Sciences Centre and St. Boniface Hospital in Winnipeg, Manitoba, and a registered echocardiologist. His research interests include the field of hemodynamics, tissue oxygenation and end organ performance and physiology in both animal-based and human research. Dr. El-Sayed was a member of the Neonatal Physiologists and Therapeutics subject theme for the Canadian National Perinatal Research Meeting. He has won the Manitoba Institute of Child Health Grant in 2010 for his work on myocardial performance index and BNP predict HSDPA at 48-72 hours of age in preterm infants, as well as the Manitoba Institute of Child Health, University of Manitoba, Department of Pediatrics (Fellow category) - Best Presentation and Manuscript: A new PDA Score and BNP predict a hemodynamically significant PDA in 2011.

Deb Fraser, MN, RNC-NIC
Deb Fraser is an associate professor and the director of the Nurse Practitioner program in the Faculty of Health Disciplines at Athabasca University. She holds an appointment in the Department of Pediatrics, Faculty of Medicine and the Faculty of Nursing at the University of Manitoba (U of M). Debbie maintains an active practice in the NICU at St. Boniface Hospital and is the editor-in-chief of Neonatal Network: The Journal for Neonatal Nursing. She is the author of two nursing textbooks and over 70 book chapters and peer-reviewed articles on topics related to high-risk newborns. Debbie was recently awarded the Canadian Nurses’ Association Order of Merit for nursing education.

Jennifer Katsuno, B.A. (Hons), J.D.
Jennifer Katsuno is a legal advisor with the Canadian Nurses Protective Society. She previously held a position at a large national law firm where she practiced in the areas of health law and professional liability. She has experience representing health professionals in civil claims, regulatory complaints/investigations, disciplinary proceedings, hospital privileges matters and human rights proceedings. Jennifer also has experience in complex civil litigation trials and has appeared before the Ontario Superior Court of Justice, the Small Claims Court of Ontario, the Health Professions Appeal and Review Board and the Human Rights Tribunal of Ontario.

Khorshid Mohammad, MD, MSc, CABP
Dr. Khorshid Mohammad’s area of expertise is neonatal neurology. He completed his medical school and pediatric residency training at Damascus University, Syria. He completed three years of neonatology training at the University of Calgary and two years of neonatal neurology fellowship at the University of British Columbia. He joined the Calgary team as a staff neonatologist three years ago and since then he established the neonatal neuro-critical care program which he is leading there. He reviews all cases of neonates with brain injury including HIE admitted to the tertiary centre which is the referral centre for southern Alberta. He reviews the neuro-images for term and preterm neonates each year for the annual report. His research interests are neonatal brain perfusion and the impact of hemodynamic instability and treatment on neonatal brain injury.

Michael Narvey, MD, FRCP, FAAP
Dr. Narvey began his training in pediatrics at the University of Manitoba in Winnipeg where he completed a year of further training in neonatology. This was followed by two years of neonatal fellowship at the University of Alberta in Edmonton. Afterwards he began his career as a neonatologist in the same city, and over the six years he spent there, his career included both clinical and administrative duties including four years as the Fellowship Program director and two years as the medical director for a level II unit. In late 2010 he accepted a position in Winnipeg to become the section head of neonatology and continues to hold this post. In 2016 he took on the additional role of medical director of the Child Health Transport Team. His interests predominantly lie in the use of non-invasive technology to minimize painful procedures during an infant’s stay in the NICU. He is active on social media and has a passion for fundraising and is an active board member of the Children’s Hospital Foundation of Manitoba.

Adeline Riehl, RN, BN
Adeline Riehl began her nursing career in 1980 as a registered nurse and has worked extensively in the field of pediatric nursing at Royal University Hospital in Saskatoon. Her first position was as a bedside nurse in the Neonatal Intensive Care Unit (NICU). In 1984, she shifted her nursing career towards the newly opening Pediatric Intensive Care Unit (PICU), the first in the province to provide specialized care for critically ill children in Saskatchewan. She soon found her way back to the NICU, where in time she advanced to become a neonatal transport nurse. This position was a highly technical and complex nursing practice, where medical delegation gave her advanced skills in intubation, chest tube and line insertion, as well as x-ray interpretation and ventilation management. In 2009 an opportunity presented as the PICU nursing manager, which she accepted with enthusiasm. Over the next six years, she had the privilege of leading that staff through enormous change as they expanded the unit, becoming the only PICU and pediatric transport team for Saskatchewan. She has since returned to the NICU, as manager of nursing, where she continues work on improving care for the children and families of her province, as well as planning for the new Children’s Hospital of Saskatchewan. Adeline is currently completing a Master of Nursing with the University of Saskatchewan.
SPEAKER BIOGRAPHIES – GENERAL SESSIONS, SYMPOSIUM, CLOSING SESSION

Maureen Shogan, MN, RNC
Maureen Shogan has had varied nursing experiences as a neonatal clinical nurse specialist, nurse manager, transport nurse and staff nurse in a 46 bed level III NICU and 26 bed mother-baby unit. Currently she is a professional neonatal nursing consultant throughout the U.S. and Canada. She is the clinical director for a million-dollar Phase 2 National Institute of Drug Abuse (NIDA) project on developing neonatal abstinence curriculum for mobile devices. An app for NAS scoring is included in the project. She is now often asked to speak on cannabis (marijuana) in pregnancy and newborn/childhood effects in Canada and those states that have legalized its recreational use. Maureen is adjunct faculty at Washington State University College of Nursing as well as Spokane Community College Respiratory Care Practitioner program in Spokane, Washington. She has written numerous articles in refereed nursing journals and developed and presented several webinars for national nursing organizations. She has given dynamic and memorable day-long workshops throughout the U.S. and Canada at national and regional meetings. She is passionate about professional nursing practice and multidisciplinary collegial relationships. Maureen is both a Washington State Cougar (MN) and Gonzaga University (BSN) Bulldog. She has completed a life-long goal of visiting all 50 U.S. states and is now trying to visit all Canadian provinces and territories (9 down, 4 to go).

Georg M. Schmolzer, MD, PhD
Dr. Georg Schmolzer is the inaugural Heart and Stroke Foundation/University of Alberta professor of neonatal resuscitation and the director of the Center for the Studies of Asphyxia and Resuscitation (CSAR) in Edmonton. He also works as a neonatologist at the Royal Alexandra Hospital. Dr. Schmolzer obtained his MD, PhD, and clinical training in Austria and Australia. In 2014 he completed a Banting Postdoctoral Fellowship at the University of Alberta. CSAR’s research focuses to i) understand physiological changes during fetal to neonatal transition; ii) improve diagnoses, mitigate risk and improve survival and quality of life for newborns; iii) use emerging technologies during neonatal resuscitation; and iv) examine how these physiological changes can be used to improve short- and long-term outcomes of newborn babies.

Kimberley Stever, MA
Kimberley Stever is a clinical ethicist with Alberta Health Services in the Calgary Zone, based at Alberta Children’s Hospital. Prior to this role, she served as a junior clinical ethicist and an ethics education consultant for the AHS Clinical Ethics Service. She has served on a number of clinical ethics committees in Alberta, and is currently the diversity officer for the Canadian Bioethics Society. Kimberley is presently a PhD student at the University of Calgary in population and public health, studying addiction stigma related to opioid substance use disorder. Her Master’s work in philosophy at the University of Alberta focused on distributive justice and public health, examining pandemic obligations to the global poor. She received a B.A. in Bioethics from the University of Toronto. Kimberley has worked with a number of international development NGOs on issues of poverty and development, and she was previously a teaching assistant for various philosophy and ethics courses. Her primary bioethics interests include end-of-life ethics, decision-making capacity, public health policy, and resource allocation.

Jennifer Taylor, BSN, RN, CNE
Jennifer Taylor has been a NICU nurse for 11 years and has a background in labour and delivery and post-partum. She is now a clinical nurse educator at Foothills Medical Centre NICU, a 39-bed Level 2 and 3 NICU. Jen is passionate about FiCare, attending multiple workshops and conferences on the subject, and is chair of the FiCare Committee at Foothills Medical Centre.

Jacqueline Tisher, RN
Jacqueline Tisher has a personal and professional connection to children with complex medical needs. As a registered nurse, she worked in Medical Pediatric Intensive Care and Neonatal Intensive Care with children who have complex medical needs. Her oldest daughter Acacia was born with a spina bifida and spent much of her childhood in the hospital. After caring for children who have complex medical needs personally and professionally, foster care became another avenue Jacqueline pursued. Nineteen years ago, her family opened their home and hearts to foster Hope, a child with medical needs, who lived only a short ten months, all in the hospital. Jacqueline had a dream. With the loss of Hope and her daughter Acacia in 2011, Jacqueline took her personal journey to impart hope to families of children with complex medical needs. As the founder and CEO of Hope’s Home, Jacqueline has seen this dream become reality. Hope’s Home provides daycare, respite and supportive living homes for children with complex medical needs in Regina, Prince Albert and recently Saskatoon and Warman. Jacqueline is a compassionate mother, dedicated nurse and passionate caregiver. Awarded the 2010 Saskatchewan Healthcare Excellence Award for Community Leadership and 2013 YWCA Women of Distinction Award for Entrepreneurship and Innovation, she offers freely of her time and energy to be a voice for children with complex medical needs. Jacqueline is a 2013 graduate from Saskatchewan Institute of Health Leadership, 2016 Professional Leadership Certificate with ongoing training and development in leadership and professional coaching. With the help and dedication from the amazing staff at Hope’s Home, there is a place for special children just to be kids. Jacqueline’s dream is a reminder that there’s no place like Hope.

Kara Ann Waitzman, OTR/L, CNT, NTMTC
Kara Ann Waitzman has been a neonatal therapist for over 30 years at a level III Neonatal Intensive Care Unit where she assisted with the 60 bed, single family room NICU design, initiated and maintains the developmental care and therapy program, and serves as the nursery’s developmental specialist. She served on the Association of Women’s Health, Obstetrics, and Neonatal Nurses (AWHONN) Continuum of Care Advisory Board and Power of Touch Committee, the National Association of Neonatal Therapists (NANT) Professional Collaborative and currently serves on the March of Dimes Program Services board. Kara Ann is a Certified Neonatal Therapist, is certified in Neonatal Touch & Massage as well as the Newborn Individualized Developmental Care and Assessment Program (NIDCAP). She is Pediatric Neurodevelopmental Therapy (NDT) trained and has obtained the Neonatal Developmental Care Specialist designation through the National Association of Neonatal Nurses. Kara Ann is president of Creative Therapy Consultants and has been a nationally sought-after speaker, educator and consultant for almost two decades. She is founder of the Neonatal Touch & Massage Certification® (NTMC), co-founder of Infant-Driven Feeding® (IDF), LLC, and co-developer of the Infant-Driven Feeding Scales®. She has published articles on positioning and feeding, written a chapter on neuromotor development and massage and developed videos on massage, skin-to-skin holding, and swaddled bathing for both healthcare providers and parents in the NICU. Kara Ann has received professional awards including the Ohio Occupational Therapy Pediatric Model Practice Award, the March of Dimes Healthcare Worker of the Year Award, the 2011 MVH Excellence in Service Award, and most recently the National Association of Neonatal Therapists 2015 Inaugural Pioneer Award.

Lynn S. Wolf, MOT, OTR, BCIC
Lynn Wolf has practiced occupational therapy at Seattle Children’s Hospital for more than 35 years. Her clinical specialty is the treatment of infants, with a strong focus on feeding issues. She is a Board Certified Lactation Consultant, and is on the faculty of the Department of Rehabilitation Medicine at the University of Washington. Lynn has done extensive speaking and writing about pediatric feeding issues, and is co-author of Feeding and Swallowing Disorders in Infancy: Assessment and Management.

**Advanced Surgi-Pharm**

BOOTH 14

Our NICU patient warming (TransWarmer) and thermal regulation devices (NeoHelp) are rapidly becoming industry leaders. Some other very popular products include: Neonatal PICCs, Umbilical Catheters, and a Safe Enteral Feeding System. Advanced Surgi-Pharm is the Canadian distribution division of the Surgmed Group of Companies “Creating health care value since 1993”.

**Alberta Health Services**

BOOTH 11

AHS is setting the national standard for quality health services as Alberta’s largest employer, striving to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans. Working at AHS enables a better quality of life, not only for our staff, but their families too.

**BCIT Neonatal Specialty Nursing Program**

BOOTH 9 & 12

BCIT’s neonatal specialty nursing comprehensive programming ensures you are fully ready for a career in neonatal nursing. We equip nurses to care for infants who are in the first month of their lives and need hospitalization in neonatal nurseries and neonatal intensive care units (NICUs).

**BOMimed**

BOOTH 6

BOMimed specializes in the manufacturing and distribution of airway management, anesthesia, critical care, patient monitoring and infant warming therapy products. Since 1985 we have been dedicated to providing quality comprehensive solutions backed by trusted clinical expertise. Through our commitment to continued innovation, integrity and superior customer service, we have firmly established ourselves as a leader in the health care industry.

**Canadian Hospital Specialties**

BOOTH 5

Canadian Hospital Specialties is a national specialty distributor of medical and surgical products focused on strategic partnerships to enhance the experience of our customers. Our clinical sales and marketing expertise coupled with our continued commitment to invest in new technologies brings value to supplier partners and customers alike. At CANN we will be showing the Natus NICVIEW™, MED-RX Enteral Safe Feeding System and the Mennen CritiCool.
Dr. Brown’s Medical
Dr. Brown’s Medical is committed to assisting medical practice professionals to facilitate safe, successful, positive oral experiences for hospitalized infants from admission through discharge home. For more information on all products from Dr. Brown’s Medical, including ordering and pricing information, please visit www.drbrownsbaby.com/medical, call toll-free at 1-844-683-5263 or email medical@handi-craft.com.

Creative Therapy Consultants
Creative Therapy Consultants provides education related to neuroprotective and family-integrated care that is evidence based, individualized to meet the needs of each audience, participant centered, and has a strong “hands-on” component to facilitate the transition of classroom knowledge into competent bedside caregiving. We provide both online and hands-on educational opportunities.

Exhibitor Directory (Alphabetical Listing)

CardioMed Supplies Inc.
Since 1978 CardioMed Supplies Inc. has been a leading Canadian manufacturer and distributor of disposable medical devices for open heart surgery, dialysis, critical care, oncology and other specialized areas. CardioMed has earned a strong reputation for our innovative research and design, our use of high quality materials, and our meticulous attention to the changing needs of today’s physicians, nurses and patients.

Creative Therapy Consultants
Creative Therapy Consultants provides education related to neuroprotective and family-integrated care that is evidence based, individualized to meet the needs of each audience, participant centered, and has a strong “hands-on” component to facilitate the transition of classroom knowledge into competent bedside caregiving. We provide both online and hands-on educational opportunities.

Dr. Brown’s Medical
Dr. Brown’s Medical is committed to assisting medical practice professionals to facilitate safe, successful, positive oral experiences for hospitalized infants from admission through discharge home. Medecins Sans Frontieres / Médecins Sans Frontières Canada
Médecins Sans Frontières (MSF) is the leading independent international medical relief organization worldwide; it provides emergency medical care to people affected by disasters, conflicts and other humanitarian crises in over 70 countries. We recruit and hire trained and experienced professionals to provide medical assistance when and where humanitarian needs are greatest in the world. Last year we sent 396 Canadians to our projects abroad, including nurses, doctors, engineers, accountants, human resources professionals, managers, experts in water and sanitation, and many more.

Medela Canada Inc.
Medela is the global leader in support of clinical research in the fields of breastfeeding, lactation and human milk, and we use the findings to create some of the most innovative feeding solutions available. We believe that through an outcome-focused, clinical perspective, the true capabilities of our products are revealed.

EXHIBITOR DIRECTORY (ALPHABETICAL LISTING)

GETINGE
Getinge is a leading global provider of innovative solutions for operating rooms, intensive-care units, hospital wards, sterilization departments and for life science companies and institutions. Based on first-hand experience and close partnerships, Getinge offers innovative healthcare solutions that improve everyday life for people, today and tomorrow.

ICU Medical Canada Inc.
ICU Medical connects patients and caregivers through safe, life saving, life enhancing IV therapy products, systems and services. For more than three decades, we have been dedicated to a singular purpose—improving the safety and efficiency of IV therapy. With the acquisition of Hospira Infusion Systems from Pfizer in 2017, we became the only company to focus exclusively on IV therapy across the continuum of care.

Mallinckrodt Pharmaceuticals
Mallinckrodt Pharmaceuticals is an industry leader in providing specialty pharmaceutical products. The company’s two business segments include Specialty Brands and Specialty Generics. Areas of focus include autoimmune and rare diseases; immunotherapy and neonatal respiratory critical care therapies; analgesics and hemostasis products. To learn more visit www.mallinckrodt.ca.

McArthur Medical Sales Inc.
McArthur Medical Sales specializes in the world of neonatal medicine and developmental care. We are pleased to showcase the complete NeoMed enteral feeding products portfolio, Philips positioning product line, SenteC TC CO2 monitor, Ardo breast pumps, Turtle Tub and other high-quality items for the NICU.

Medela Canada Inc.
Medela is the global leader in support of clinical research in the fields of breastfeeding, lactation and human milk, and we use the findings to create some of the most innovative feeding solutions available. We believe that through an outcome-focused, clinical perspective, the true capabilities of our products are revealed.
Prolacta Bioscience, Inc.  
BOOTH 1 & 2

Prolacta Bioscience, Inc. is a life sciences company dedicated to improving the quality of life by Advancing the Science of Human Milk®. Using state-of-the-art formulation, pasteurization and filling processes, Prolacta creates specialty formulations made exclusively from human milk for the nutritional needs of premature infants in the NICU.

Minogue Medical Inc.  
BOOTH 23

Minogue Medical Inc. is a healthcare organization specializing in the delivery of innovative medical technologies, supplies and equipment to hospitals, medical clinics, teaching hospitals and nursing schools. In addition, MMI provides nutritional and supplemental products for weight conscious patients and high-performance athletes.

Mothers Choice Products  
BOOTH 8

Mothers Choice Products is a Canadian distributor of premium health care products for postpartum, the NICU, and full-term babies. Our product line includes Ameda breastfeeding products, Mambibab nipple shields, PumpEase hands-free pumping bra, Penguin nutritional warmer, MicroCool medical refrigerator, Sterifeed bottles, Joeyband for skin to skin, and TensCare.

Procter & Gamble  
c/o The Gibson Group  
BOOTH 15 & 18

P&G is proud to be the exclusive Diamond Sponsor of the Canadian Association of Neonatal Nurses 2018 National Conference. At P&G we understand our responsibility is to work together with the leaders who define our health care landscape. We aim to improve the lives of Canadians with our range of baby care products including Pampers diapers and Pampers wipes. P&G, proudly supporting and recognizing the leadership of the Canadian Association of Neonatal Nurses.

Pampers Innovation Leads the Way in Skin Science

Pampers is committed to research and innovation that will safely care for babies now and for generations to come.

- >80 clinical safety studies conducted by more than 700 technical employees
- >50 global scientific papers published on Pampers innovative diaper and wipe technology
- Clinical research with 1,500 babies and 20,000 skin measurements across 3 countries
- Products sold in 130 countries worldwide, serving 50 million babies every day
- #1 selling diaper worldwide

Research-Driven Products with Global Reach*

We strive to make Pampers products best in class — so they meet needs, exceed expectations, and have the research to back them up. That’s why Pampers Sensitive Wipes are clinically proven mild for babies’ skin and designed to help restore natural skin surface pH. The Pampers line up also includes Swaddlers — our softest diaper ever — in sizes P-3 through size 6, featuring three preemie sizes designed with NICU nurses to meet the needs of even the smallest babies.

For more information or to order products for evaluation, please contact us at: 1-800-543-3331 or PampersPro.IM@pg.com
